

FISCAL YEAR 2006 – 2007 GRANT RECIPIENTS

The U.S. Department of Energy's State Energy Program (SEP) assists OED in carrying-out these grant opportunities.

BIOFUELS INFRASTRUCTURE GRANT PROGRAM

The **Biofuels Grant Program** is marketed by the Indiana State Department of Agriculture. The program offers grants to fuel retailers that purchase and install infrastructure to sell E85 and / or B20 fuel.

OED will continue to work with its partners [Indiana State Department of Agriculture, Clean Cities Coalitions, Indiana Corn Growers Association and the Indiana Soybean Board] to promote the use of biofuels in Indiana. OED's goal is to lessen our nation's dependency on foreign oil, create a market for the products of our growing biofuel production industry, improve the environment and educate consumers about alternative fuels and vehicles.

A total of \$428,900 was awarded to 20 projects across at least 17 counties.
